

# ThrustPro Dryer

THE RYKO THRUSTPRO IS THE PERFECT COMPANION TO ANY WASH SYSTEM. IN FACT, WHEN COMBINE WITH A RYKO AUTOMATIC ROLLOVER

VEHICLE WASH SYSTEM, A LOCATION'S THROUGHPUT CAN AS MUCH AS DOUBLE WITH A CORRESPONDING INCREASE IN REVENUE. THIS MERCHANDISING TECHNIQUE IS POPULAR BECAUSE IT PROVIDES THE SAME SERVICES AS A TUNNEL OPERATION BUT REQUIRES ONLY HALF OF THE EQUIPMENT SPACE.

THE THRUSTPRO DRYER FEATURES A TOP FOLLOWER THAT OPERATES ON THE SAME PRINCIPLE AS A HOVERCRAFT. THE BACK PRESSURE OF THE AIR LETS THE FOLLOWER FLOAT OVER THE CAR, JUST INCHES FROM THE SURFACE. TWO POWERFUL SIDE FANS COMPLETE THE DRYING PROCESS ON THE SIDES OF THE VEHICLE.
